LOCAL RULES

- **U.S.G.A. RULES OF GOLF** govern all play.
- **OUT OF BOUNDS** is defined by the inside points, at ground level, of large white stakes and fence posts. When both stakes and lines are used to define out of bounds, stakes identify the out of bounds and lines define the margins. Proceed under Rule 27-1. When two out of bounds stakes coincide, out of bounds is deemed to extend to infinity.
- **WATER HAZARDS** are defined by **yellow stakes** or **yellow lines**. Proceed under Rule 26-1.
LATERAL WATER HAZARDS are defined by **red stakes** or **red lines**. Proceed under Rule 26-1.
When both stakes and lines are used to define water and lateral water hazards, stakes identify hazards and lines define margins. When a lateral water hazard is defined on only one side, it is deemed to extend to infinity. When water hazards and lateral water hazards are bounded by out of bounds, the hazard margin extends to and coincides with the out of bounds line.
- **GROUND UNDER REPAIR** is defined by white lines. Relief without penalty may be taken as provided in Rule 25-1. White-lined areas tying into artificially-surfaced roads and paths have the same status as the roads and paths, that of obstructions. Relief without penalty may be taken as provided in Rule 24-2.
- **OBSTRUCTIONS** - All artificially surfaced roads & paths, such as asphalt, concrete, or gravel roads and paths (including worn areas around such roads and paths that are a result of car usage) are immovable obstructions. All flood pumps (usually located on the sides of drainage dikes), culverts, french drains, and pump houses are immovable obstructions. Relief without penalty may be taken as provided in Rule 24-2.
- Anywhere "through the green", a **BALL** which is **EMBEDDED** in its own pitch-mark in the ground, except in loose sand, may be lifted without penalty, cleaned and dropped as near as possible to the spot where it lay but not nearer the hole.
- There may be **DROPPING ZONES (Ball Drops)** at various locations when it is not feasible or practicable to proceed exactly in conformity with Rule 26-1 (*Water Hazards & Lateral Water Hazards*). The Conditions of Competition sheet should have specifics as to which hazards and how a player may take relief using dropping zones.
NOTE: Dropping Zone on #11 may be used as an option for a ball that is in the Ground Under Repair or right side Lateral Water Hazard.
- **YARDAGE MARKERS** are located on sprinkler heads and disks located in the middle of the fairways. All yardages are measured to the middle of the greens. **Red disks - 100 yards; White disks - 150 yards; Blue disks - 200 yards.** Yardage disks and sprinkler heads are immovable obstructions. Relief without penalty may be taken as provided in Rule 24-2.
